

Certificate of Accreditation

We hereby certify that
Yewdale Corporation Ltd
has successfully applied
the Durasafe® test to:

YewdaleHarrier® Disposable Curtains

Durasafe is a performance testing international accreditation standard used to determine the characteristics of a fabric under various load conditions over time to ensure effective resistance to visible wear.

Every Durasafe product will have been screened, pre-tested and trialled before being awarded its international standard set of approval, and is warranted by the manufacturer to conform to tensile and tear resistance control guidelines through particular test methods.

Test methods: Available on request

Report Number: **2440**

Date: **October 2020**
